TRC Recreation, LP is a pioneer of personal floatation products in the vinyl coating industry. Founded in 1957, TRC has steadily maintained the ability to be a reliable domestic manufacturer and global supplier of superior vinyl-coated water recreation products. The majority of TRC products are made by hand, from start to finish, in the U.S.A. With two manufacturing facilities, located in Wichita Falls and Graham, Texas, TRC provides optimum production, reliable service, and timely delivery of all orders.

TRC Recreation, LP has been recognized, worldwide, for over five decades as the best in vinyl-coated products. The company's brand name, SuperSoft®, was founded in the early 1960's and continues to set the mark for superior quality, comfort, and durability.

In 1967, TRC Recreation LP developed the world's first U.S. Coast Guard approved wrap-around water-ski vest made exclusively of vinyl-coated closed-cell foam. This was followed by the invention and introduction of the present external strap ski vests which were granted Coast Guard approval in 1973, the first year Type III approvals were sanctioned. In addition to the U.S. Coast Guard, the Super Soft® swim and ski vests have maintained the required standards for CE marking.

TRC continues to be a leading innovator and manufacturer of exceptional water and outdoor recreational products: pool floats, floating chairs

and lounges, spa pillows, water toys, games, and accessories, plus many fresh and new designs each year.

TRC is an eco-friendly pacesetter, integrating best practices for responsible recycling, thereby reducing water and air pollutants. Both U.S. manufacturing plants are equipped with regenerative thermal oxidizers that extinguish VOCs and refine the air that is being released into the atmosphere. Our environmentally conscious manufacturing process puts a premium on recycling and puts us in good standing with the environment and our customers.

TRC Recreation, LP supports a respectful and responsible relationship with the environment, while maintaining a reputation of excellence in the design and manufacturing of products that not only last, but provide years of enjoyment, safety, and fun.

- Extra thick layers of soft, closed-cell, vinyl-coated foam that work together with an internal steel frame to provide unmatched durability
- Increased flotation with large, contoured armrests that add stability and capacity
- Two adjustment knobs to lock recliner into desired position
- Two large accessory holders
- Easy to clean
- Lays flat

Approximate Dimensions

Backrest 27" - Leg-rest 35" - Seat 22" - Width 33"
Fully Reclined Length 62"

Item Numbers:

6402118	Bronze	
6402126	Bahama Blue	
6402128	Marina Blue	
6402131	Tropical Teal	
6402135	Flamingo Pink	

- Patented dipped rust proof frame!
- Upgraded, thicker foam!
- Increased buoyancy!

A pregnant woman is lying on her back on a bright pink inflatable lounger in a swimming pool. She is wearing a light blue bikini top and matching sunglasses, smiling and looking up. The pool water is clear blue, and the background shows a stone pool edge and lush green foliage.

ecliner

Baja FOLDING LOUNGE
